# Selectmen's Report.

---

The Selectmen of the Town of Whately respectfully submit the following report for the year ending March 1, 1889.

It will be noticed that there has been an unusual expense in consequence of the great snow storm of March 12th to 15th last, and that some other expenditures have been necessary for which no special appropriation was made, but notwithstanding these facts, we are glad to be able to congratulate the Town upon its improved financial condition, as shown by our balance sheet. This report will show the expenditures in detail and you are urged to scrutinize them carefully, with a view to be prepared for wise and intelligent action in fixing the appropriations for the present year. After carefully studying the needs of the several departments we should meet all legitimate wants with reasonable liberality.

## BRIDGES.

During the past year a substantial culvert has been built in the south-east part of the Town near the house of Alfred S. Belden. It is constructed of heavy stone, laid in cement, on a good foundation of timbers, and is covered with stone; its dimensions are length 38 feet, height 4 feet, width of waterway 4 feet and cost, including the excavation, filling, etc., \$442.77.

In accordance with the vote of the Town the Town Hall building and its contents have been insured against fire, in the North American and Hartford Companies, the policies to expire five (5) years from their date, the amount being \$3000.

The money appropriated for the library has been expended by the committee and the books are received, but on account of a mistake in the bill which has been sent back for correction, it remains unpaid.

Respectfully submitted,

L. A. CRAFTS,	} Selectmen of Whately.

## REPAIRS.

Your Committee have repaired the school houses the past year, and will say that all are in very good repair, with the exception of a few small repairs; and we would recommend the Town to appropriate \$50 for that purpose, as there are a few things that should be done before the commencement of the Spring term, and there is always something constantly coming up to be attended to in season to save a larger expense. We hope the Town will raise the sum asked for; it will not be expended unless it is needed.

## REMARKS.

In reviewing the Schools your Committee feel warranted in stating that an excellent degree of prosperity has been attained. Of the eight teachers employed four of them have taught for the entire year in the same schools, with the exception of one who was obliged to give up four weeks, because of sickness.

The teachers have been teachers of experience, ability and culture, and have been true to their trusts.

In conclusion, your Committee would thank you for your liberal appropriations for the year past, and would recommend the raising of \$1200 for Educational purposes, and \$50.00 for repairs for the coming year.

All of which is respectfully submitted.
